

## Elementary School (grades 1 through 5) *Drama/Team Work/Social Skills*

Divide your students into groups and assign each student to one of the characters/roles below. Students must create two skits, which may be acted out in front of the entire class:

1. A situation where an accident happens
2. A situation where an accident is prevented

After each group's skit is acted out, ask the audience to discuss the differences between skits one and two and share what safety rules were followed and which ones were not.

CAST
Policeman or Crosswalk Attendant
Pedestrian
Car or Driver
Bicycle or Bicyclist

### Attention Teachers!

Don't forget to share your students' skits with the Law Offices of William Mattar. Send YouTube links of skits from your classroom to [contests@williammattar.com](mailto:contests@williammattar.com), and we'll let you know if your students' skits make it to the Cubel!
